PROFILE

Computer Science student pursuing Management and Data Science, with hands-on work in software development, AI, data analysis, and cybersecurity. Have worked on academic and personal projects involving machine learning, document analysis, and web applications. Also have experience coordinating students, speakers, and events through student leadership.

EDUCATION

B.E. Computer Science Engineering

Stanley College of Engineering and Technology for Women

2023 – 2027

CGPA: 9.40/10

B.S. in Management and Data Science

Indian Institute of Technology Madras

Pursuing

CGPA: 8.00/10

Inbound Credit Mobility Program — Universiti Malaysia Kelantan

2026

EXPERIENCE

Front-End AI Engineering Intern — FlyRank AI

Jun 2026 – Present

- Started a structured internship covering AI fluency and front-end AI engineering.
- Currently working through assignments involving AI workflows, prompting, developer tools, and front-end development.

Cybersecurity Intern — CYFY.AI

Apr 2026 – Jun 2026

- Researched GDPR and data protection requirements and contributed to technical documentation.
- Performed QA testing and feature validation and worked with News APIs for cybersecurity-related information.

AI Data Analyst Intern — Excelerate

May 2025 – Jun 2025

- Analyzed student engagement data using Python and Excel to identify trends and generate insights.
- Created data visualizations and reports and worked with an international team on analytics tasks.

PROJECTS

DocuMind — AI Document Intelligence System (RAG-Based Contract Analyzer)

[GitHub](#)

- Built a document analysis tool using RAG, Streamlit, FAISS, semantic search, embeddings, and document chunking.
- Added features for contract summarization, entity extraction, and risk classification.

Smart Urban Mobility & Traffic Management System

[GitHub](#)

- Developed a transport monitoring system with vehicle tracking, route management, and ETA prediction.
- Used Python and machine learning with geospatial visualization to present transport information.

Gamified — AI-Powered Gamified Learning Platform 2nd Runner-Up — IBM InnovateX Hackathon 2025

- Contributed to developing an AI-powered learning platform combining personalized content with gamification to improve student engagement.
- Worked on interactive learning features for engagement, progress tracking, and personalized learning experiences.

LEADERSHIP & ACTIVITIES

Chair — SCETW ACM-W Student Chapter

2025 – 2026

- Led speaker and stakeholder coordination for AICWiC 2026, working with 12 speakers across ACM, industry, legal, and academic communities for a 2-day event with 200+ participants.
- Managed communication and logistics for a 6-week Summer Internship Program involving 30+ international speakers and 200+ students.
- Coordinated speaker confirmations, scheduling, follow-ups, and on-event support for a 2-week conclave with 5+ panels and 400+ participants.

Executive & Outreach Member — The Inklings Literary and Debating Club

2026 – Present

- Secured 1st Place at the Chevening Round Table Conference on Cybersecurity, presenting technical and strategic perspectives on organizational security.
- Planned a campus-wide Resume Building Workshop, coordinating outreach to HR professionals, speaker participation, and attendee engagement.

SKILLS

Technical: Python, Java, SQL, JavaScript, HTML/CSS, MySQL, Git, GitHub, Firebase, Streamlit

CS Foundations: Data Structures, DBMS, Web Development, Software Engineering Fundamentals

AI & Data: RAG, LLMs, CNNs, Pandas, NumPy, Scikit-learn, FAISS, Data Analysis, Data Visualization

Professional: Professional Communication, Stakeholder Coordination, Cross-functional Collaboration, Documentation, Event Coordination, Problem-Solving, Analytical Thinking
